**These tires are Bias Ply and are not DOT Rated.**

This is Goodyear's Famous G-7 tread pattern nicknamed the Chicken Scratch Design.

These tires are the preferred tires for road racing and club racing on Cobras, Trans Am's and other cars.

**Only the white Goodyear is on the side of the tire.  
The word Eagle does not appear on these tires.**

**The most common sizes used on Cobra Automobiles are the 245/60VR15 and 295/50VR15.**

I have dealt with a few Cobras that were used in SCCA racing and the owners have used the Avon 225/60VR15 on the front with the Avon 295/50VR15 used on the rear.

**The Avon CR6ZZ line of tires perform exceptionally well and are run on the following automobiles: Cobra, GT 40, Mustang, Ferrari, Pantera, Corvette, Camaro, Porsche, MGB. Alfa Romeo. Customer satisfaction is extremely high on these tires.**

**HR rated tires are good to 130MPH.**

**VR Rated tires are good to 149MPH.**

**295/50VR15**

**245/60VR15 Avon CR6ZZ**

**The tire on the left was hand grooved for better wet and gravel performance by us.**
